For Parents!

We are again offering a concurrent workshop for parents. Experts will present ideas about how to support and promote your daughter’s interest in science, technology and math education. Discover tips and tools you can use to assist in her development.

The workshop will include topics covering information about educational opportunities available in Thurston County schools including information about current trends in science, technology and math career fields. Information will be available regarding the special challenges students face, the educational opportunities available after high school and what colleges look for in a student applicant. The Running Start program and financial preparation will also be discussed.

Parent participants are invited to attend both Main Stage events, an Inspirational Morning Moment from Nalini Nadkarni and then join the “Fire and Ice” presented by “Mad Science”!

This is a single workshop that parallels the events presented for the girls. This very popular last year so please be aware that space is limited. Sign up early to reserve your seat. There is a small fee of $10, but scholarships are available. No on-site registration will occur.

If you are interested, sign up using the registration form:

"Fire & Ice" presented by Mad Science!

Mad Science is an organization dedicated to sparking the imagination through fun, entertaining and educational activities that instill a clear understanding of what science is really about how it affects the world. It was established in 1985 for the purpose of science education and has now a network of locations in 100 North American cities and 22 countries around the world and they have presented to millions of participants. Their mission: “Stimulate scientific learning through hands-on, fun scientific activities!”

Mad Scientist Gabby Huffman will present “Fire & Ice” exploring basic science through combustion, giant vortexes and bubbling potions to help explain the three states of matter for a very cool time. The event wraps up with a refreshing Dry Ice bubble shower! This event is sponsored by Nellie Mae.
EYH STUDENT REGISTRATION FORM

Registration Information

How to sign up for hands-on workshops
Selected by your advisor. Choose workshops that offer new and different challenges.
Choose four workshops: a first, a second, and third choice from EYH's Column A, Column B, and Column C. Each column has individual math or science focus. While we will try to honor your specific requests, we are not always able and you may be lucky enough to experience an unexpected learning opportunity!

Schedule November 1, 2003, 8:00-12:00

9:20-9:35 Registration
9:30-9:40 Breaking Moment with Helen Heidorn and Reusebanking
9:40-10:00 Workshop I
9:35-10:25 Workshop II
10:30-10:45 Break
10:50-11:40 Workshop III
11:50-12:50 Main Stage Event (Fire & Ice)

Please choose four workshops from the following.

Column A

A1 Who Dunnit?
A2 A Career in Dental Public Health
A3 Building Blocks
A4 Building Materials
A5 Career Opportunities in Dentistry
A6 Ever Wish You Really Understood Why Airplanes Fly?
